

Active ownership

Global engagement to deliver positive change

Active ownership means working to create sustainable value for our clients. Our annual report details how we achieved this in 2019.

"From climate change to executive pay, we continue to take decisive action with companies and regulators on the issues that matter to our clients and society at large"

Sacha Sadan

Director of Investment Stewardship

In 2019, LGIM:

Engaged with

493
companies

Voted on

50,900
resolutions*

Opposed the election of
more than

4,000
company directors globally
in 2019*

Participated in about

30

engagements with regulators and
policy-makers, to **improve market
standards around the world**

Took sanctions
against

11

companies named as
laggards under our
Climate Impact Pledge

Voted **against**
management at

71%

of companies, primarily due to concerns
around the suitability of directors or auditors,
pay or other elements of company strategy

Our objective is...

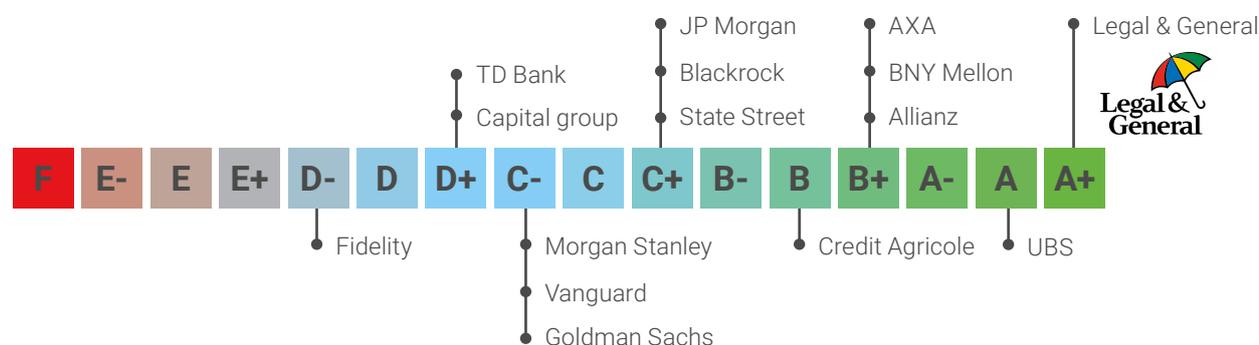

... to effect positive change in the companies and assets in which we invest, and for society as a whole. Last year, we focused on:

Climate change

- LGIM supported more shareholder resolutions on climate change than any of the world’s 20 largest asset managers¹
- We published our second annual ranking of climate leaders and laggards, naming 11 companies that have failed to demonstrate sufficient action, including ExxonMobil
- Contributed to successful legal efforts to suspend the construction of a risky, polluting coal plant in Poland

Case study: BP

We filed our first shareholder resolution in 2019, in coordination with other major shareholders, calling on energy giant BP to explain how its strategy is consistent with the Paris Agreement on climate change.

The proposal was passed with overwhelming approval from shareholders. BP has subsequently announced industry-leading carbon targets.
